UNFAILING

EYE PRESERVERS!

The large and increasing sales of our celebrated

Perfected Spectacles

AND

EYE GLASSES,

In Massillon and vicinity by our Agent,

Louis Schaufele, *Jeweler,*

Is a sure proof of their great superiority over the ordinary glasses. We were satisfied that the reality of the advantages secured by their use, viz:

The Brilliancy of Sight!

The perfect ease & comfort,

And the readily ascertained improvement of the eyes, continuous and abiding as it invariably is, would be sufficient to insure their almost general adoption by the residents of this locality. And the result has proved we were right—as an assistant to and

Preservers of the Sight.

To extreme old age they are unapproachable, and are really cheaper, because lasting so many years without change being necessary.

Mr. Louis Schaufele, Jeweler, is the sole and only agent in this locality, and has always on hand a full assortment of

Gold, Silver, Steel, and Shell Frames,

Suitable for every difficulty of the sight.

CAUTION!—We wish it distinctly understood that we do not **supply or Employ Peddlers,** here or elsewhere. Be are of them false representations to the contrary.

Massillon, O. Aug. 11, 1869.

RECEIVED, per hands of James H Hunt, of the Security Life Insurance and Annuity Co, of New York Two Thousand dollars for the Insurance on the life of The A Ricks. I take great pleasure in bearing testimony to the promptness with which the Security pays her losses.

WM F RICKS, Administrator.

Though this company has demonstrated time and again the value of life insurance by distributing among the widows and orphans of

175 Members the sum of

$500,000.

Yet its losses in proportion to the number insured and amount of insurance, has been remarkably few and light, according to a compilation from the last published report of the Massachusetts Insurance Commissioner, showing the ratio of claims by death on policies issued during the last twelve months in the leading life insurance companies, thus:

Name of Company.	Ratio				Persons Insured.
Massachusetts Mutual	21	one	death	in every	476
New England Mutual	20	do	do	do	500
Ætna	32	do	do	do	313
Connecticut Mutual	30	do	do	do	333
Equitable	41	do	do	do	244
Germania	28	do	do	do	357
Globe Mutual	42	do	do	do	238
Knickerbocker	14	do	do	do	714
Mutual Life	32	do	do	do	313
Mutual Benefit	52	do	do	do	192
New York Life	29	do	do	do	345
North American	09	do	do	do	1111
Security	06	do	do	do	1667
American Popular	20	do	do	do	545
Total ratio	29	do	do	do	345

The old companies are ever harping upon the ratio of their expenses and in proportion to business done: whereas, to every person seeking insurance the fact that the profit and loss account is very important, taken together

The cost of insurance depends upon the vitality of the company in which you insure.

And the best proof of inherent vitality is the ow ness of the per cent. Those wishing to pro ure will be promptly accommodated by calling on JAMES H HUNT, Cashier Bank.

INDEPENDENT.

O'Dwyer & Co., of Pittsburgh, continue to increase the interest of their new magazine, Leisure Hours, by publishing productions of intrinsic value. It has been in existence one year, the September No completing the first series of twelve, and ever since the beginnig its circulation has been rapidly increasing. Those Sketches of Pittsburgh are attractive reading to thousands.

THE ADVANCE.—This journal which Dr Bushnel pronounces one of the ablest, best, and outspoken religious papers now published enters upon its third volume this week, and celebrates the event by several marked improvements. It appears in a new dress of type, begins the regular publication of Henry Ward Beecher's sermons, and adds several new names to its list of contributors, among them that of Hon Henry Wilson of Massachusetts, who in the current number discusses the problem of Chinese imigration from the standpoint of Christian statesmanship. The publication of Beecher's sermons in the Advance will prove an admirable feature of an already admirable paper, and attract many readers. The Advance is published at $2,50 per year by the Advance company, 25 Lombard Block, Chicago.

A GREAT OFFER.—That admirable weekly paper, The Saturday Evening Post, is offering a great inducement to new subscribers. It designs commencing a new and brilliant novelet on October 2d, and it offers to give new subscribers for 1870, the numbers for October, November, and December gratis. A large extra edition of three months will be printed but it will be well to send in subscriptions as early as possible, lest the earlier numbers should be exhausted. Of course all names sent in by the middle of October will be certain to receive all the three months of extra papers. Price $2,50 a year. Four numbers for $6. Sample numbers post paid six cents. Address H Peterson & Co., 319 Walnut st., Philadelphia.

The following liberal offer is made to any who feel interested in aiding a useful paper for the young:

THREE MONTHS FREE.—The publisher of Merry's Museum offers to send that popular magazine three months free to any one who wishes to examine it. Address Horace B Fuller, publisher, 11 Bromfield st. Boston.

The American Stock Journal for September contains the usual variety of interesting articles, also a premium list for 1870, offering a large variety of useful articles to all who get up clubs. Specimen copies, show bills, &c., sent free. Address N P Boyer & Co., Parkesburgh, Chester Co. Pa.

That illustrated monthly for the boys and girls, published at Boston, by Joseph H Allen, comes the present month handsomely ornamented with fine pictures, and enticing reading for the juveniles.

LIST OF PREMIUMS

To be awarded at the Stark County Fair, to be held at Canton, Tuesday, Wednesday, Thursday and Friday, Sept. 28, 29, 30, *and Oct.* 1, 1869.

Lieut. Governor

JOHN C. LEE,

Will be at Massillon on

Tuesday, Sept. 28th.

From what we can hear our Canton neighbors are exercising themselves tremendously to induce Russell & Co., of this place, to establish a branch of their manufacturing operations at their city. Whether they will be successful or not we are not informed, but the movement indicates that our people here should be at work to induce this enterprising firm to extend their works at home. If our Canton friends are so liberal as to promise the firm the use for years, of large amounts of dollars, according to common report, to carry out their idea, they should be ashamed of our moneyed men at home, who could give much more equally liberal offers, and keep the work here. There may be sufficient difference in the movement, of which we know nothing, that from an outside view of matters certain it is that Massillon, for the sake of self protection and local prosperity, should be alive to the great question.

And not only are our Canton neighbors after that enterprising firm, Russell & Co., but the capitalists of Mansfield are reported as making equally vigorous efforts to induce them to go there. These are very broad hints that our citizens should bestir themselves and take efficient measures, if their interposition is necessary, to counteract these movements as far as possible, or at least so far as our local interests are involved. It is pretty certain that the members of this firm would rather remain at Massillon, for here is where their industry, enterprise and energy have built them up a solid fame, commencing in an humble way, which is not limited by the shores of our own extended country, but is co-extensive with other and far off nations; and a significant result is, they have one of largest, best arranged and completed establishments of this class of manufactories to be found in the world. No wonder it is then that foreign moneyed men are at work to offer inducements for them to go elsewhere, for they know well that just such enterprise as has for many years characterized this firm is one of the most efficient instrumentalities of which they can avail themselves to build up their cities. And that is just the reason why our people should be as wide awake as others are to the magnitude and advantages such prospects from confer.

On this question the following timely notice has been handed us for publication. It is to the point:

Advance or Retrograde?—That is a question involved in the proposition to locate a branch of Messrs. Russell & Co's works at some point more enterprising than Massillon, and holding the vitality of our city sacred, we think an effort should be made to maintain our position as a manufacturing point. It has been suggested that a meeting of the citizens be called some evening at Madison Hall to consider several projects for furnishing the required capital. Such meeting will be held Friday evening, and everybody is interested in such decisive action as will secure the investment to Massillon where it properly belongs.

By posters about town we notice that S. F. Carey, once the great and inspired temperance lecturer of [illegible] fame, is to be here to address the working men in Madison Hall, in regard to their interests. We are not aware as to what sort of handicraft he directs the use of his horny hands, but the notice reads as if he is a worker of some sort. We hope he will enlighten our laboring men as to their true interests, for this is a manufacturing place, and we have hundreds of the real working mechanics, who are are willing to receive light. It is reported by some of our Cincinnati contemporaries, that Carey is out making speeches for the democracy, and that this appeal to the working men is a mere guiltrap to get them to go and hear copperheadism. Not many years ago he denounced this democratic party with all the bitterness of a furious whig or ardent republican. Can that be the same Gen Carey that is to be here Saturday evening? Our old temperance men, ought to call and hear him, if he is the same.

If you are in need of a handsome white bed spread go to Ricks' and see their assortment.

Our editorial brethren of the Cleveland Herald seem wonderfully exercised about the political temperance movement, and they are making what they deem tremendous strides toward writing it out of existence. In their zeal they assert that, "The cause of temperance cannot touch politics without being contaminated. Politics begets unholy ambition, it debases men into demagogues, it makes hypocrites, it makes liars, it makes men selfish and selfishness—which is the bane of personal ambition—will ruin any purely moral cause." If politics is such a wicked abomination as to induce all such evils, it is a wonder that so good men as these editors will have anything to do with them, for according to their definition to be politicians means to be demagogues, hypocrites, liars, selfish and ambitious. The Herald is decidedly a political paper and the editors are politicians, but we do not therefor infer that these worthy men are such morally dissolute characters as the foregoing definition would indicate. The question of slavery was once a tabooed subject, and when first it was introduced in politics, some of us can well remember that not a few politicians did their best to write it down—and active in that list were these same editors of the Cleveland Herald—but with all their labor, talent and power, the more they tried to write it down the more they could not do it. True, they might have told us a score or more of years ago, that politicians were selfish, ambitious, hypocrites, liars—that the slavery question was a purely moral one—and that its prospects would be entirely ruined by this contact with politics. The work progressed, we see the result, slavery is abolished, and we believe that none rejoice more in that fact than these same editors. As their vaticinations on the slavery question proved a failure, so there is every reason to believe that those who oppose political temperance will equally fail in their efforts to put it down.

Deaths.—Gen Rawlins, secretary of war, died at Washington on the 6th inst., after a protracted illness, of consumption. He was regarded as a man of much more than ordinary ability, and performed the responsible duties of the various high positions in which he was placed with fidelity, and to the satisfaction of the patriotic people of the country. Gen Sherman has been appointed temporarily to take charge of the war office until a successor to the deceased is put in his place

Senator Fessenden, of Maine, a man of considerable distinction in the national councils, died at his residence in that state, on the 8th inst.

Judge Chase has very sensibly announced to the world that he has no presidential aspirations, and is well satisfied with the present incumbent. This is welcome news to many people, for the impression was prevalent that he would like to be president some day

The election in Vermont the other day is a very one sided affair, for it seems that they left about all, or very near all, the democrats out of office. That party has bad luck in the Green Mountain State, and Maine and Massachusetts will be little or no better.

New Mexico, too, has done like Vermont, left the democracy out of office. But they can crow over California, which is similar to the Dutch taking Holland.

The following, from one of the most worthy citizens of Athens County, Ohio.

We take pleasure in publishing such certificates, as we know it to be genuine.

EDITOR.

ATHENS, ATHENS Co., O., August 10, 1859.

DR. C. W. ROBACK,

Dear Sir:—Permit me to say in relation to your Scandinavian Blood Pills and Blood Purifier, that I have used several boxes and bottles, and have found their effects on my system to be all that is claimed for them in your advertisements. I have also seen the effects of your Pills upon a child four or five years old, in expelling worms from the bowels.—One dose given the child, confined to the bed, and apparently very sick, caused the worms to come away from it in great numbers, and they were found crawling and scattered all about. The child thus relieved recovered immediately, and is now well and hearty.

SITUATED on Tremont street west side of the River—House 24 by 30 containing six rooms—finished throughout complete. Hall up and down stairs, a tight stone walled cellar summer kitchen, out door bake oven, and large cistern with filter. Pig-pen, coal house and hen-yard—about fifteen fruit trees of various kinds, currant and gooseberry bushes are on the premises. The lot contains about one acre. I will sell said property on easy terms.

Railroad Meeting

This evening at the American Hotel. All those interested in the early completion of the road now in progress connecting Cleveland and Massillon, are requested to meet at the time and place above indicated.

The Methodist Mite Society for next Monday evening, will be held at the residence of Mr David H Fahs, about one mile west of town, on the Millersburgh Road Refreshments may be expected, and everybody is invited to attend.

The Great Show, recollect, is to be at Massillon next Monday Look out for it —it is a big thing, and well worth seeing. Wherever it has been it has met with the popular applause, and has been welcomed by admiring thousands. It fills the bill, and for this reason has attained deserved popularity.

According to the measurement of Dr Watson's rain gauge, the water that fell last Tuesday, the 7th, was about four inches. It was an unusually heavy rain, steady, continuous and often falling fast. In the eastern states, while they experienced heavy rains, they were also visited with a terrible tornado, which proved quite destructive wherever its ravages were felt. Millions of property was destroyed, lives lost, and desolation marked its pathway, leaving fearful proofs of its severity.

Something New.—We understand that McDonald & Bruce are introducing that new variety of bread known as aerated. It is a favorite with many people who have tested its merits, but to most of our citizens it will be something new. It looks nice and white, and is good to eat.

We can now understand why it is that bro Allen of the Steubenville Gazette, appears to be in a sweat all the time—it is because bro Allison of the Herald is after him with a sharp a stick. No wonder he writhes and tumbles about so—those keen prods of the Herald are enough to shake up the guilty conscience of any political sinner, and make him think those awful radicals are all armed with whips to lash their opponents naked through the land.

After their conquests at Wooster the other day our boys felt very comfortable, and on Friday evening they paraded the streets in uniform, accompanied with their trophies of victory, torch lights, and music. Their celebration was marked by good order, and they quietly adjourned at an early hour.

The Kelley Bros and Mr Estep have just been improving the front of their stores by a liberal and skillful application of paints on their doors and windows. Messrs Kelley have also added one of those new and convenient awnings, which has lately been introduced here.

Large quantities of fruits are sold these days by McDonald & Bruce. One day last week they disposed of more than ten bushels of plums in two or three hours.

For furniture in great variety, picture frames of all varieties and sizes, go to Huntsman & Hacket. Anything in their line can be had at short notice. Call and see their large collection.

Plums to can received daily, at 12 cts per quart. Leave orders the day before at McDonald & Bruce's.

The citizens of Jewish persuasion, says the Rep: Rep, are about establishing a synagogue or place of worship in Canton. As a considerable number of that denomination live in this place—perhaps enough to organize a similar institution—they may soon follow the example of their Canton brethren.

Melons, to day and every day, at McDonald & Bruce's.

Go to Ricks' and get a jubilee hat before they are all sold.

Honey and glycerine [illegible] article cheap, 5 cakes for [illegible]

Save money and buy [illegible] & Co at the opera house

Since the heavy rain of last week we have had most pleasant weather, and no finer time could be for out door work.

Mr. Joe. Bahney's well known and permanently established cabinet warerooms, on Erie street, are fully supplied with every variety of furniture. Mr B. attends to business with the utmost promptness.

All the latest styles of plaid flannels at Ricks' will be sold cheap.

Waterproof cloth, black, brown and gold mixed, at Ricks'.

Catawba Grapes, Jersey sweet potatoes, sour apples, and choice peaches arriving daily and guaranteed to please in quality if not always in price at McDonald & Bruce's.

Mr. Fassett, who is in the trade of musical instruments, has taken the southern room in the Opera Block, where he proposes to keep a stock on hand to dispose of to purchasers. He also gives attention to tuning instruments, and will answer the request of any of our citizens in that way, as he has had considerable experience.

The English Catholic church of this place is about putting a steeple upon their house of worship, and placing therein a bell, which is expected to be the largest in the city, to be about a ton or 2000 pounds in weight. This steeple will add much to the appearance of that neat looking building; and is evidence that the congregation worshiping there is in a prosperous condition.

It is most gratifying to the many friends of James Harsh, Esq, who has been quite sick recently, to be informed that his health is improving, and it is hoped that he may soon be out and able to attend to business.

Fresh oysters, choice brand, excelled by none, arriving daily at McDonald & Bruce's.

Fruit jars, to close out at a large discount, at McDonald & Bruce's.

The new styles of waterproof cloaking, at Ricks'.

Notice.—Members of the Massillon Library Association will meet at the mayor's office on next Tuesday evening, at 8 o'clock, to transact important business.

The Firemen's Tournament at Wooster, on last Thursday, was attended by large numbers of people; and Massillon was represented by three fire companies beside a large number of of citizens who felt an interest in the performances of the day. We have not heard or seen the official report of what was done; but among the large number of competitors for the various prizes the Massillon Vigilant company took the first premium $75 in money, for throwing water the farthest, going beyond others some 30 feet. They also "took the horn," that is, added another trumpet to those they had already received, and in the sweepstakes took the bucks' horns too. In short, we understand that they gobbled all the premiums offered for fire engines of their class. These facts show that our firemen are in earnest in their work, and deserve the encouragement due to them from our citizens for their efficiency, skill and success in the work they have undertaken.

Aerated bread, pure as air, we get it fresh every day, ten cents a loaf, McDonald & Bruce's.

The Premium List for the forthcoming fair appears in to-day's paper. Our readers on examining the particulars can find what may interest them. The time is not long in which to make preparation by such as expect to participate, if they have not already done so. As to the fair grounds and accommodations for visitors, those having charge of them give us every assurance that all will be done to render this annual exhibition a success. And to render it so in the fullest sense it is now the duty of farmers, mechanics, manufacturers and artists of various classes to do their part, for no amount of preparation by the officers can compensate for a failure in this branch of the business. The products of the farm, the manufactory, the skill of the artizan, the taste and ingenuity of those who cultivate the beautiful and useful, can all be brought into requisition, and enhance the interest of the fair. And one of the best features of the whole is, that these annual gatherings bring our people together and make them better acquainted, and necessarily more social. Then let everybody who can come up to Jerusalem once a year, forgetting political, social or other differences, shake hands and rejoice in each other's and the general prosperity.

If you have not secured your fruit jars you had better call over at London's and purchase some of those celebrated Vitrous stone jars. They are just the thing for fruit and tomatoes. Call and see them, they are for sale at no other place in the city.

We have not the official account of the doings of the fire companies the other day at Wooster, but hope to obtain them in time for next week's issue.

This fine weather our farmers are very busy seeding, and putting in a large breadth of land, so far as we can hear. It is the right time to be at work, as we may look out for storms before long.

Get Zane & Norny's fruit preserver at London's, 'tis just the thing to prevent fruit and tomatoes from spoiling, it is guaranted to do it or money refunded.

The Fine Arts.—Mons Pujol, an artist of rare genius, has arrived and commenced the decorations attaching to the opera house. From some specimens exhibited, and the sketching intended for the ceiling of the auditorium, to which we might add the high rank of Mons Pujol among the profession, justifies the most complete confidence that he will do the subject full justice.

Home made satinet is the best goods to buy for service, go to Ricks' and buy it.

Coverlets and bed blankets will be sold at very low prices at Ricks'.

Call at London's for plums, peaches, grapes, cooking apples, and everything in the grocery line.

You can buy clothing, hats, caps, trunks, and furnishing goods, of S Koch & Co at the opera house, cheaper than of any other house in town. 318 1m

Don't forget to remember that we have just procured one of the largest sized Nonpareil job presses, and are prepared to use it on all occasions, and know that it will do well, for we have often tried it. We hope our friends will not be too modest to see their names in print in connection with their business—and this press is just the article to do that part—for they will find, as many others have done, that there is great virtue in a judicious use of printers' ink.

We have the pleasure of welcoming new subscribers to our list, frequently, and hope the good work will continue. It is our endeavor to give every subscriber the worth of his money.

When the republican nominations were made some two months ago it will be recollected that Mr Folger was voted for as candidate for justice of the peace, and Mr A J Humberger was nominated for land appraiser.

Wilmot.—This village, situated in Sugar Creek township, is evidently prospering, for everything there appears to be improving. The citizens seem to be doing well, as they are tastefully arranging their dwellings and the surroundings, all of which betokens a wholesome state of affairs. Messrs Johnston & Putman, who have for years been successfully engaged in the manufacture of agricultural implements, are encouraged with the present prospect, and are doing well in the business which they so well carry out; and are rendering practical benefits to themselves and to the community by which they are surrounded.

S S Fassett, of Cleveland, will be in this city the first of October. Parties wishing their pianos tuned by him will leave orders at Fassett's agency, opera house. 324-4w

Woolen yarn in all colors sold very cheap at Ricks'.

Carpets will be sold by Ricks' at prices which can't be equalled.

Go to Ricks' and buy a pair of those quarter hose, the best in the country.

As the lecture season is approaching we hope that those gentlemen connected with the Massillon Library Association will take the necesesary steps to have a great literary want—a course of good lectures—to our people, supplied; and to realize this their efforts must be liberally and energetically sustained by the people. The opera house it is hoped will soon be in condition to receive lecturers of national eminence, and of course audiences which will justify the engagement of this class of lecturers.

As our city has now a board of improvement, authorized to propose and mature such projects and advantages as will insure the prosperity, attraction and solid wealth of the place, it is hoped they will fulfil the duties expected of them, and submit the same to the council for approval or rejection. Prominent among these improvements is the gas question—and which cannot be dodged—and on which action must sooner or later take place. No one ought to be so sanguine as to expect that if our municipal authorities make a move in this direction, that they will be so indiscreet as to direct the erection of lamp posts all over town at once. Such a measure would be highly improper; but as a beginning must be made, let all as far as possible be agreed to put up lights in such places as are most indispensable at first, and then gradually extend them as our necessities and the financial condition of the city will warrant. All this may as well be done harmoniously as to dispute and quarrel about it.

Mr. Wm. Anderson, who lives near Massillon, raised some of the largest peaches we have seen this season, part of them weighing over half a pound each; and they were as good as they were large, as has been tested by the necessary experiments.

New Goods at the clothing store of Harry Haas—some have already arrived, and more coming soon. Give him a call.

The New York Teacher is one of the first-class monthlies devoted to the interest of professional educators. Every number contains some wholesome criticisms, and that for the present month has several pages occupied by a shrewd writer who stands up for the expression, Is being done, and many similar phrases. Even leading grammarians differ about this form of speech. It is well for them to discuss such points. J W Schermerhorn & Co., N Y.

Peter Duff, founder and principal of the Pittsburgh Commercial College for many years, died at his residence in that city, on last Monday, aged 69 years. Many of our business men, as well as hundreds of the same class at other places, will remember the useful instructions imparted to them in this well known college while under direction of its founder, and will regret to hear of his death. He certainly was a useful man in his day, and well performed his part as a promoter and advocate of practical, useful business knowledge.

Our firemen had a pleasant time on yesterday evening parading the streets with music for some time. Then they marched to the engine house where they were entertained with a brief speech by Mr. Folger, who interested them a short time with appropriate remarks.

There is to be a boxing match at Madison Hall Thursday evening—where the show can be seen for 50 cents a head. We have an outside ticket.

A Card.

The Fire Department of the City of Massillon tenders its thanks to the Fire Department of the city of Wooster, for the many acts of kindness by it most gracefully tendered to the fire department of Massillon, during its late visit to the city of Wooster, on the occasion of the Firemen's Tournament.

The occasion was one of unalloyed pleasure to the officers of the department, and officers and members of the several companies comprising the fire department of Massillon, and reflects entire credit not only on the fire department, but upon the municipal authorities of the city of Wooster, for the completeness of the arrangements upon which the success of the occasion was dependent.

The Massillon Fire Department hopes that the not distant future, will present an occasion when those courtesies of the municipal authorities, fire department, and citizens resident of the city of Wooster, now gratefully acknowledged shall be reciprocated.

Philip E. Hess,
P Stilgenbauer,
P. G. Albright, } Committee.
John H. Bachtel, Sec'y

We are requested to further state that the members of the fire department, of this place, tender their warmest thanks to their Canton brethren of the same department for the courtesies while at Wooster, and hope ere long to reciprocate in kind for the respect and gentlemanly bearing thus evinced.

The friends of temperance here and elsewhere, who meet once a week in their lodge and division rooms, are now having the advantage of longer evenings, which can be occupied advantageously in encouraging and inspiring each other to go forward in the good work they are engaged in carrying forward. How it may be in other places we do not know, but here nobody but members of these associations appears to take any interest in carrying forward this work; and as community seems to depend upon these orders to achieve the miracle of arresting, or aiding to arrest, the tide of intemperance, it is well that the increasing length of the coming evenings be industriously employed in the best manner to produce the greatest good in this direction.

The New Railroad Project.

A meeting of the stockholders of the Southwestern Railway was held in Washington, Guernsey county, on Wednesday last. The meeting was well attended, over two hundred thousand dollars of stock being represented. The following directors were elected: W. P. Sprague of McConnelsville, James Farmer of Cleveland, B. Roseman and Dr. J. M. Stone of Cumberland, James Rich of Senecaville, Dr. F. Rea of Washington, Thomas Green of Freeport. The board of directors immediately organized by electing the following officers: James Farmer, president; W. P. Sprague, secretary; Dr. J. M. Stone, treasurer. The northern terminus of the road is New Lisbon, Columbiana county, and the southern at Gallipolis. About one hundred miles of the road north from McConnelsville is already graded, and it is hoped that the present management will soon have the work of completing the entire road under headway. Mr. Farmer, the newly elected President, is well known to the northern portion of the state as a leading railroad man, and, being possessed of means will push the road forward in a manner creditable to himself.—Steubenville Herald.

The week of horrors ends with the brightest announcement we have been able to make this many a day. Our dispatches from Washington assure us that the forthcoming report of the treasurer of the United States will show that the expenditures of the government for the late fiscal year were $485,000,000 less than the year before. We make no comments whatever; we merely ask our readers to remember that in the face of this enormous economy in the national expenditures we have been steadily reducing the principal of our debt. The skies are brightening, and the firm land is in sight. The day when repudiation or national bankruptcy was possible is well nigh past.—Tribune.

B. A. FAHNESTOCK'S
VERMIFUGE.

It is now over forty years since this medicine was offered as a remedy for Worms, and from that time its reputation has steadily increased until at the present day it is almost universally acknowledged throughout nearly all parts of the world to be the *sovereign remedy.* Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country; but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily. *Children* often look *pale* and *sickly* from no other cause than *worms,* and *spasms* are most frequently the result of these hidden sappers and miners.

When they are irritable and feverish, sometimes craving food and eating ravenously, again refusing wholesome diet, tossing restlessly in sleep, moaning and grinding the teeth, then be assured these symptoms are indications of worms.

Uneasiness and pain in the abdomen, with swelling and hardness, are generally attendant upon the presence of those hidden sappers and miners.

A gradual wasting away or emaciation of the flesh is one of the most common attendants upon worms. They absorb the animal juices, and destroy the nourishment imparted to the stomach by wholesome diet, thereby occasioning a variable appetite and a strong desire for indigestible food.

The stomach has, undoubtedly, a very great sympathy with other parts of the body. This is the case with respect to the irritation produced by worms, especially those existing in the stomach itself. They give rise to many other diseases, and patients often suffer incredibly without being aware of the cause.

Many a helpless child has been laid in the grave, when the disease which caused its death has been entirely misunderstood, and when worms have really been the cause. It has been proved beyond cavil that worms exist in the human system from earliest infancy, therefore parents—especially *mothers,* who are more constantly with their children, cannot be too observing of the *first symptoms of worms,* for so surely as they exist, can they be *safely* and *speedily* removed from the *most delicate infant,* by the timely use of B. A. Fahnestock's Vermifuge.

Physicians do not hesitate to recommend it and use it in their practice, and many of the most eminent of the profession, from all parts of the country, testify to its unfoiled success. In fact, it *never fails.* It has frequently been given to children as a safe purgative, not suspecting the cause of the illness, and large quantities of worms were discharged and immediate relief afforded.

Great caution must be used by every purchaser, to be his own judge in one sense, and to examine every bottle he buys of it. The simple name of Fahnestock is not sufficient. He must look closely and carefully to see that the initials are **B. A Fahnestock,** and be satisfied with nothing else.

Science Advances.

As soon as an article purporting to be of utility has been tested, and its merits endorsed by public opinion, unprincipled parties endeavor to replenish their depleted purses by counterfeiting, and substituting a spurious for the genuine article. Some time since mercury in the disguise of pills, powders &c, was given for all diseases of the stomach and liver, while quinine was freely administered for the chills. At length Hostetter's Stomach Bitters made their appearance, and an entire new system of healing was inaugurated. The beneficial effects of this valuable preparation were at once acknowledged and mineral poisons suffered to sink into that obscurity to which an enlightened age has consigned them. There have been many spurious bitters palmed upon the community, which, after trial have been found perfectly worthless, while Hostetters has proved a blessing to thousands, who owe to it their restoration to health and for many years we have watched the steady progress of Hostetters Stomach Bitters in public estimation, and its beneficent effects as a cure for all complaints arising from the stomach, of a morbid nature and we are free to say that it can be relied upon as a certain relief and remedy. Its proprietors have made the above preparation, after years of careful study and sifting, and are now reaping the reward claimed by this valuable specific, and which they so richly merit. It is the only preparation of the kind that is reliable in all cases, and it therefore demands the attention of the fleet ated.

Feather Dressing.

THE UNDERSIGNED offer to the citizens of Massillon and vicinity the most successful Feather Dresser ever offered to the public, it proves to be exactly what all conditions and qualities of feathers, from entirely new to old and much eaten need to render them as perfect as the condition of the feathers will permit of them being made. The cleansing is done entirely by steam, our facilities are such that we can take a bed and return it the same day, for the small sum of two dollars. Hair Mattresses renovated and made ready for use.

CAUTION.

An old law book published many years ago, has just been hastily re-issued as a new book, without even a suitable revision of its obsolete statements. Do not confound that work with Chamberlins Law Book for the People, 318-6w

FASSETT'S
PIANO-FORTE
ORGAN & MELODEON
AGENCY,
ESTABLISHED IN 1849.
Office, Cor. Seneca and Champlain Sts.,
CLEVELAND OHIO.

The management of this agency take great pleasure in informing the citizens of this vicinity, that hereafter they can avail themselves of the

Superior Inducements

offered by this agency in procuring Instruments of the

FIRST CLASS,

As we Positively

Deal in None Others.

Parties contemplating a purchase will find it materially to their interest to give us their address, and receive a call from one of the agents, who will get an idea of what is desired, and then will take particular pains to

SATISFY ALL PURCHASERS,

as to style, prices and terms of payment. This agency can show upwards of

Fifty Instruments

now in private houses, within ten miles from this point; some of them having been in constant use for THIRTEEN YEARS, and have never been out of repair. We do not come before the public offering a first class instrument for $50, as we cannot get them. Our instruments have not declined in prices, but on the contrary, have advanced, within the past year five per cent. Our

ROSEWOOD ORGANS AND MELODEONS

are veneered with Sawed Cut Veneers. The material is first class in every respect. The tuning is as near perfect as possible. The

Beauty of Design and Finish

surpass all others now in market. Persons never having seen our instruments have no idea of the advantages we offer, and should not think of purchasing elsewhere without first consulting us.

Time Payments.

After this date our particular attention is to be devoted to this rule of trade, although considered by many dealers as not very remunerative, yet, having for many years endeavored to favor the industrious working classes with every advantage for procuring instruments and enjoying music at home, we are now determined to perfect this branch of trade, so that the man of moderate means may give his children the advantages of a Musical Education.

Pianos, Organs and Melodeons

repaired in a workman like manner by COMPETENT WORKMEN. Old Instruments taken in exchange for new ones at their true value. All instruments delivered

FREE OF CHARGE.

Pianos removed, packed, and shipped at reasonable rates.

Frightful Developments!

At last the people have got the fact through their hair, that hair dyes impregnated with acetate of lead or other metalic salts are

Murderous Preparations.

When they see the metalic sediment at the bottom of the bottles, they know that the disgusting stuff is literally thickened with poison. They ask, therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious in

Cristanoro's Excelsior Hair Dye

is offered under the guarantee of Professor Chilton the famous analytical chemist, as an absolute

Pure and Harmless Preparation.

Cristadoro's Hair Preservative, as a dressing, acts like a charm on the hair after dyeing. Try it.

In Remote Settlements of Untold Value.

Food makes blood, blood makes the body. If the blood be pure, the body is sound. Sure if we are not so, we know some impure matter is lurking about which must be removed, and the sooner the better.

Dandreth's Pills remove it from the system with healthful promptness.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened and enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood.

Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full directions are with each box. Sold by all druggists.

Comfort and Bliss, or Pain and Agony.

Dr Tobias' Celebrated Venetian Liniment; whose wonderful cures, sure and instantaneous action, in cases of chronic rheumatism, headache, toothache, croup, cuts, burns, colic, cramps, dysentery, &c., have astonished the civilized world, is no new patent nostrum; but an article that has stood the test of twenty-five years. Its enormous sale and rapidly increasing demand is evidence, the surest, evidence of its usefulness as a popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, cramp, and dysentery yield at once to its pain curative properties. It is perfectly innocent, and can be given to the eldest person or youngest child. No matter if you have no confidence in patent medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of physicians recommend it in their practice.
Sold by druggists and grocers. Price, 50 cents and $1. Depot, 10 Park Place, New York.

A Race for Life.

(Correspondence Grand Rapids (Mich) Eagle.)

* * * To make it an intelligible matter to the reader, let me say that the Buffalo, Corry and Pittsburgh road intersects the Lake Shore road at Brocton. The station at the junction is named Brocton. Now let it be understood that from this point to Maysville, at the head of Chautauqua Lake, a distance of only about ten miles, a train is carried over an elevation of 700 feet. From the station to the summit the grade is about 80 feet to the mile, with curves which increase the distance by four miles. It is over this road that the immense quantities of petroleum are brought.

On Tuesday evening about 9 o'clock, a train consisting of six oil cars and two passenger cars reached the summit on its way to the junction. Here, by some cause as yet unexplained, one of the oil tanks took fire. The passenger cars were at once detached and the breaks stopped them. Next the oil cars were cut of, and the locomotive, tender and box car, containing two valuable horses and two men, passed down the road, the engineer supposing that the breakman on the oil cars would arrest the course of these, but what was his horror, on looking back, to see the six cars in pursuit of him down the grade, enveloped in the flames. They not only pursued, but overtook him, striking the box car with inconceivable force, knocking the men and horses flat on the floor, and yet, most miraculously, not throwing the engine from the track.

It was now with the engineer a race for life, and he gave the engine every ounce of steam. Looking south from the place of my residence at this terrible juncture, one of the most magnificent spectacles was witnessed that a man sees in a life time. A sheet of intensely bright flame sixty feet high, was seen coming down that southern slope, apparently with the speed of a hurricane (80 miles an hour); for pursuer and pursued flew over the course, or rather down it, and around the curves at the rate of more than seventy miles an hour, as the engineer declares, and as everybody can believe who witnessed the spectacle. The whole heavens were illuminated, and the landscape was lit up as by the noonday light. Onward and downward flew the engine and behind it flew and thundered the huge fiery demon. Twice its prodigious weight was driven against the fugitive, as if by instinct with a purpose to drive it from the track. It seemed as if to the heroic engineer and fireman there was a perfect environment of peril. The speed of the engine was such that it ceased to pump; then again, the Cincinnati express was due at the junction at this time. The engineer of the oil train whistled 'open watch,' and shaking hands with the fireman, they bade each other farewell, knowing that their lives depended on the opening of the Lake Shore switch by their friends below, and this was to imperil the express train coming down from the west with its living human freight. The engineer on this train saw the fire when it first broke out on the summit, and supposing he could clear the junction he saw the effort was a vain one, for the flying conflagration had rushed out on the Lake Shore track, and was roaring on in the direction of Dunkirk. He checked the headlong rush of his own train and brought it to a stand still. It did not proceed until three o'clock in the morning.

The case took in another danger, and it was imminent. A heavy freight train was coming up on the Lake Shore road. All I will say of this is that it did escape to the side track, and only escaped by the last minute of possibility.

Running on to a safe distance from the depot, the engineer of the oil train detached his engine and left the six cars to consume. He says his situation was fully realized by himself. He expected to lose his life. At every moment he expected the engine to leave the track. He saw that he was going at a perilous rate of speed, but there was no help for it. The demon was behind him and he declares it looked like a demon. With that fondness or real affection for his engine which these men display, he said, "I thought everything of my engine, and was determined to stay by it to the last." The fireman made one attempt to escape by jumping from the tender but the engineer restrained him. Altogether the occurrence is a remarkable one, and in part remarkable for this, that no lives were lost. The breakemen on the oil cars had gone back to the passenger cars when the oil cars started. It is well they did. Unless those rear cars had been detached and stopped their inmates would have been burned to death.

The Quaker's Method With a Thief.

Names symbolizing ideas, a thousand charms cluster by association around the word 'Quaker.' The simplicity of their lives, in connection with the confidence they have in the love principle as the only true method of reform—all have for us deep soul-attractions.

William Savery, an eminent preacher among the Quakers, was a tanner by trade, and known by all as "one who walked humbly with his God." One night a quantity of hides were stolen from his tannery; and he had reason to believe that the thief was a drunken, quarrelsome neighbor, whom I shall call John Smith. The next week the following advertisement appeared in the county newspaper:

"Whoever stole a quantity of hides on the fifth of the present month is hereby informed that the owner has a sincere wish to be his friend. If poverty tempted him to his false step, the owner will keep the whole transaction secret, and will gladly put him in the way of obtaining money by means more likely to bing him peace of mind."

This singular advertisement attracted considerable attention; but the c'-prit alone knew who had made the kind offer. When he read it, his heart melted within him, and he was filled with sorrow for what he had done. A few nights afterward, as the family were about retiring to rest they heard a timid knock; and when the door was opened, there stood John Smith, with a load of hides on his shoulder. Without looking up, he said, "I have brought these back, Mr. Savery; where shall I put them?" "Wait till I can get a lantern and I will go to the barn with thee," he replied; "then perhaps thou wilt come in, and tell me how this happened. We will see what can be done for thee."

As soon as they were gone out, his wife prepared some hot coffee, and placed pies and meat on the table. When they returned from the barn, she said, "Neighbor Smith, I thought some hot supper would be good for thee." He turned his back toward her, and did not speak. After leaning against the fire-place in silence a few moments he said in a choked voice. "It is the first time I ever stole anything, and I have felt very bad about it. I am sure I didn't once think I should ever come to what I am. But I took to drinking, and then to quarrelling. Since I began to go down hill, everybody gives me a kick. You are the first man who has offered me a helping hand. My wife is sickly, and my children are starving. You have sent them many a meal. God bless you; and yet I stole the hides. But I tell you the truth, when I say it is the first time I was ever a thief."

"Let it be the last, my friend," replied William Savery; "the secret still remains between ourselves. Thou art still young, and it is in thy power to make up for lost time. Promise me that thou wilt not drink any intoxicating liquor for a year, and I will employ thee to-morrow on good wages. The little boy can pick up stones. But eat a bit now, and drink some hot coffee. Perhaps it will keep thee from craving anything stronger to night. Doubtless thou wilt find it hard to abstain at first; but keep up a brave heart, for the sake of thy wife and children and it will soon become easy. When thou hast need of coffee, tell Mary, and she will always give it to thee."

The poor fellow tried to eat and drink, but the food seemed to choke him. After vainly trying to compose his feelings, he bowed his head upon the table and wept like a child. After a while he ate and drank, and his host parted with him for the night with the words, "Try to do well, John, and thou wilt always find a friend in me." He entered into his employ the next day, and continued with him many years, a sober, honest, and faithful man.

The secret of the theft was kept between them; but after John's death, William Savery told the story, to prove that evil might be overcome with good.

Farm Building.

In traveling about Ohio, we have often been compelled to notice the want of sufficient and well arranged frame buildings. Of course we have not expected to find in the newer portions of the state, all the conveniences with which the farmer in the older regions surrounds himself

Several out-houses are needed on every farm, and these require to be conveniently arranged in reference to each other, and also in reference to one or more good yards for the accommodation and shelter of stock. Barns, sheds, stables, pig stys, wagon and tool house, are needed on the smallest farm; and on the majority of farms a dairy house, feed room, with cooking apparatus, a shop for carpenter work and other in-door work, that may be done on rainy days, are equally desirable.

It would be difficult, perhaps impossible to state the proper order in which several of these buildings should be placed in relation to the house and principal barn. The arrangement must vary with the character of the ground, and the relative importance attached to each department, the aim of course, being to economize time and labor in waiting upon animals and other necessary work. We shall present to our readers, from time to time, as heretofore, whatever plans of farm buildings come to our knowledge, and impress us with their excellence.

When this subject has received sufficient attention and every farm in Ohio has upon it the necessary buildings, so that all crops may be securely housed, every implement protected from the weather, and every animal provided with comfortable shelter, and the manure carefully saved; tho' the soil were not made more fertile, nor the seasons more propitious; yet, by avoiding the innumerable losses caused by the want of good buildings, the net profits of the farmer will be greatly increased.—Ohio Farmer.

TESTIMONIAL—Walter Muir, Esq., traveling salesman for the large wholesale drug store of French, Richards & Co., of Philadelphia, in a letter to R V Pierce, of Buffalo, N Y., says: "Within the past few months Dr Sage's Catarrh remedy has found upon my list a most promising place. There is in one good snuff of it more virtue than is contained in a dozen packages of its worthless rivals that flood the market. Rest assured that my appreciation of its merits, as realized personally in my own case, will urge me to use my best endeavors in introducing its sale thro' our house. Yours faithfully, WALTER MUIR.

Dr Sage's catarrh remedy is sold by most druggists everywhere. Sent by mail on receipt of sixty cents. Address R V Pierce, M D., Buffalo, N, Y.

M M Pomeroy, of the La Crosse Democrat, on Roback's Stomach Bitters.

C W Roback, of Cincinnati, is making the best article of bitters now manufactured in the United States or elsewhere. We have used them for three years, and would not be without them for almost any money. In the spring his stomach bitters are worth hundreds of dollars for keeping the stomach in order, and cleansing the blood from its accumulated impurities, It is not once in two years that we endorse so-called patent medicines, but Roback's are worthy of all the praise we can bestow on them.

MANHOOD: How Lost, How Restored.
Just published, a new edition of Dr Culverwell's Celebrated essay
On the Radical Cure (without medicine) of Seminal Weakness, or Spermatorrhœa, induced by Self-Abuse; Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilepsy, and Fits; mental and physical incapacity, etc.
Price in a sealed envelope, only 6 cents.
The world renowned Author, in this admirable Lecture, clearly proves from his own experience, that the awful consequences of self-abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings or cordials—pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his conditions may be, may cure himself cheaply privately, and radically.
This lecture will prove a boon to thousands and thousands.
Sent under seal, in a plain envelope, to any address, on receipt of 6 cents, or two postage stamps, by addressing the publishers.
Also, DR. CULVERWELL'S "Marriage Guide," price 25 cents. 314 2m
